

PUBLIC NOTICE

PROPOSED CORRECTIVE ACTION CHEM LAB, INC.

Ontario, California 91761

30-DAY PUBLIC COMMENT PERIOD: May 16, 2011 through June 15, 2011

WHAT IS BEING PROPOSED? A proposal to determine completion of a Resource Conservation and Recovery Act (RCRA) Corrective Action at the Chem Lab Products, Incorporated (Chem Lab) facility located at 5160 East Airport Drive Ontario, California is open for public review and comment. Corrective action refers to the investigation and cleanup process at a hazardous waste site.

Under the Department of Toxic Substances Control (DTSC) oversight Chem Lab has been conducting the required corrective action work

In compliance with the California Environmental Quality Act (CEQA), DTSC has prepared a draft Notice of Exemption (NOE) for this project. The NOE states that the proposed corrective action completion will not have a significant negative impact on human health and the environment because the RCRA Facility Investigation did not demonstrate a significant threat to human health or the environment from releases.

DTSC encourages you to review and provide comments on the proposed RCRA Corrective Action and CEQA Notice of Exemption during the 30-day public comment period starting from **May 16, 2011 – June 15, 2011**. DTSC will consider all comments before finalizing its decision of approval.

All public comments must be postmarked or received **by June 15, 2011**. All comments should refer to the RCRA Corrective Action and **must be sent to** the following:

Mr. Jess Villamayor
Project Manager
Department of Toxic Substances Control
9211 Oakdale Avenue,
Chatsworth, California 91311
Phone: (818) 717-6601
jvillama@dtsc.ca.gov
